

# ALLIED SERIES VX-Mid<sup>™</sup>

A high performance, mid-range, mount on metal UHF RFID tag engineered for demanding environments. Designed specifically with the industrial user in mind, the VX-Mid<sup>™</sup> combines Vizinex RFID's exclusive ViziCore<sup>™</sup> RFID tag technology with Xtreme RFID's proprietary plastic injection molding process. The small form factor, long read range, multiple attachment options and industry-leading durability of this tag make it ideal for a broad range of industrial, transportation and asset management applications.

## Overview

The VX-Mid<sup>™</sup> is the first in the new Allied Series of RFID tags being introduced in response to customer demand for highly rugged tags that can be used in harsh and industrial environments. The result of a joint development effort between engineers at Xtreme and Vizinex, the VX-Mid's permanently bonded polypropylene encapsulation prevents water or chemical ingress and provides the ViziCore™ RFID core added physical protection. This compact, rugged tag features an impressive 25+ foot read range when mounted on metal assets and carries a 10 year life expectancy.

## Features & Benefits

- Read distances over 25 feet when mounted on metal
- Small footprint at 1.1" x 2.3", providing excellent performance-to-size ratio
- Customizable with clear resin and labels with human readable numbers
- Ruggedized encapsulation ensures tag durability and longevity, with industry's highest ingress protection rating of 68
- Multiple attachment methods: manufactured with two holes to screw securely into place, supplied with high strength adhesive, or supplied with an optional weld plate

# Industries

- Oil & Gas
- Yard Management
- Returnable Transport Items
- Equipment Rental
- Manufacturing
- Construction
- Mining
- Agricultural Equipment

# Applications

Ideally suited for environments and applications where an extended read range is required and exposure to chemicals, mechanical abuse/vibration and temperature/ weather extremes are common concerns.

## **Physical**

Use Case
Dimensions
Encapsulation Material
Attachment

On metal 27.9 x 58.4 mm (1.1" x 2.3") Polypropylene, rigid 2 screws or rivets; 3M high strength VHB adhesive

### Electrical/RF

Typical Read Range
RF Protocol
Operating Frequency
IC Platform
IC Memory

25 feet UHF, EPC Class 1 Gen 2, ISO 18000-6C 902 - 928 MHz (U.S. Band) Alien Technology Higgs3 96 bit EPC

#### **Environmental**

Classification Operating Temperature Application Temperature Pressure Test	IP68 -40C to 85C (-40°F to 185°F) -40C to 160C (-40°F to 320°F) 241 Bar Water Pressure Washer
Steel Ball Drop Test	(3500 PSI Water Pressure Washer) 1.8 kg ball drop from 1.52 meters 5 times (4 lb ball drop from 5 feet 5 times)
Maximum (Calculated) Water Submersion Depth:	4.0 km (2.5 miles)
Xtreme Part Number	RF015

A unique joint development effort by U.S. companies, Vizinex RFID and Xtreme RFID, combines RFID label manufacturing expertise and over 40 years of plastic injection molding expertise to deliver the Allied Series of rugged RFID tags necessary to advance asset tracking capabilities in harsh, industrial environments.

## About Vizinex RFID

Vizinex RFID designs and manufactures durable, high-performing RFID tags for general and specialized asset tracking applications. We work with a customer every step of the way to solve even the most complex asset tracking problems - delivering the right tag for the right job, affordably, efficiently and consistently. With design, engineering and manufacturing all located in the U.S., our time from concept to delivery is unmatched. Vizinex RFID maintains a tradition of innovation and outstanding customer support - allowing us to deliver RFID, the way you imagined. For more information, visit the company's website at www.vizinexrfid.com.

#### About Xtreme RFID

Xtreme RFID is a leader in customized design, engineering and manufacturing of rugged RFID tags for harsh environment applications. As a Cascade Engineering company, Xtreme is part of a family-owned business, headquartered in Grand Rapids, Michigan, that has been engineering and manufacturing plastic products for a variety of markets since 1973. With a core competency in plastic injection molding Cascade is a global company with 1,200 employees in eleven strategic businesses located in 14 facilities throughout North America and Europe. As one of the largest Certified B Corporations® in the world Cascade Engineering is a nationally recognized proponent of sustainable business practices that emphasize the key role business can play in building financial, social, and environmental capital. For more information, visit the company's website at www.xtremerfid.com.
