rITrack ™

Receive it, Tag it, Keep it!

THE SOLUTION

Organizations struggle to maintain accountability for laptops, monitors, tablets, equipment, and furniture.

rITrack ™, by Supply Insight, is a simple turnkey solution for locating all types of IT assets. rITrack ™ uses passive radio frequency identification (RFID) technology to minimize the time spent completing inventory and locating missing items and is easy use. Since its introduction in 2012, rITrack ™ has been available either as a stand-alone edition used to perform tasks on a single device, or as an enterprise edition supporting a fully encrypted synchronization process between all of your devices and an enterprise class database.

Entering new assets

Enter an asset with as few as two clicks, a keystroke and two trigger pulls, or import multiple assets in a single operation.

Locate

Finding an RFID tagged asset has never been easier. Just pull the trigger and wait for the beep.

Inventory

Using only your handheld, make a list of your assets and verify their existence within seconds.

Supported Hardware

rITrack ™ supports mobile readers from leading vendors including the Zebra MC9090, MC9090Z, MC3090Z, MC3190Z, MC9190 and MC70 and the Intermec CN3, CN4 and IP30; and the Alien ALH-9000, ALH-9010, ALH-9001 and ALH-9011.

rITrack ™ supports CPCL compatible mobile printers from Zebra including Cameo 2, Cameo 2SC, Cameo 3, Cameo 3SC, Cameo PEP, QL 220/Plus, QL 320/Plus, QL 420/Plus, RW 420 and RP4T.

Industries
